Clarification of Avyakt vani dated 31.12.99 (for General public)

The Sun is the *hero* and there are various heroines. Among them [there are] number one, number two and number one plus. There is the moon and there is the earth too. These planets, which are worshipped, are not the non-living planets. There are some living souls on this stage like world, who are present even now. On the basis of their *part*, their greatness, the worship of those nine planets has been going on even today in India. In any ritual that they perform, they will certainly worship those nine elevated souls. Among them the eight, who are worshiped as *ashtadev* (the eight deities) are very elevated. The highest [among them] is the Sun of knowledge. For example, it has been written in the Gita: whom did I give this knowledge first of all? I gave it to the Sun. So, that Sun of knowledge is not someone else, the one who is called *dev dev Mahadev*¹, that *Trinetri*² Shiva Himself, in the form of the Sun of knowledge is revealed from the eastern part of India, from Kolkata. It is the place where the sowing of the seed for the new world takes place. 60-65 years ago, through the Sun of knowledge Aadam, Adam, Aadidev, through Prajapati Brahma, the Supreme Soul Incorporeal light Shiva sowed that seed of knowledge, which resulted in the creation of the new Brahmin world when He came. That place is this Kolkata itself, where Kapil Muni, Aadidev or Aadinath is present in the form of an idol even today in Ganga Sagar³ in the womb like house of the *devi*⁴ of knowledge, the *devi Ganga*.

The human souls are understanding that knowledge of the Supreme Soul by tallying this secret with the scriptures and very soon they will understand it with the help of the means of science and at *last*, when these means will also prove to be destructible - because they are made by human beings, they are not made by God, they are not natural - [then] in the end through the *vibrations*, through the concentration of the mind, every human being of this human world will recognize that *Supreme Soul* Father. But [this will happen] when every human soul awakens and makes efforts to bring that morning of knowledge. There is a proverb that [says] 'every drop contributes in filling up a pot'. When every point like human soul recognizes that *Supreme Soul* Father, even if it is the most atheist [soul]... The *atomic energy*, the *practical* slogan of '*har-har, bam-bam*' is such a revolution that when the destruction takes place in the entire world, then the most atheist human soul is also forced to believe that a wonderful power, who is called Almighty (*sarvashaktimaan*)— not just powerful (*shaktimaan*)— the one who is called Almighty has come to *control* this world. [The scientists think:] 'We do not have the *power* to explode the *atomic energy*, which we have created with our own hands'. They don't have that power. In order to inspire [them] to do even that, the *Supreme Soul* has to enter the Sun of knowledge. It is a very difficult task, which results in the destruction of all the irreligious people. All the tormenters are destroyed and the one true religion is established. Many kingdoms are destroyed. Even if it is the greatest superpower of the world, it accepts defeat. That *Supreme Soul* Father is revealed through that Sun of knowledge, the soul of Ram, who is famous in the scriptures as Suryavanshi Ram. His present name of the Elevated Confluence Age is revealed in the world as *dev-dev Mahadev*.

63 years ago the *Supreme Soul* Shiva came and sowed the seed of knowledge in that Sun of knowledge at the place where this world begins. At the end of the Iron Age, when this world becomes degraded, it is this place, Kolkata which ends this sorrowful world and disputes and quarrels; [it is this place] from where the end of the disputes and quarrels of the entire human world begins. Nobody has brought a complete revolution in the entire world until now. All the religious fathers who came... Abraham was the first religious father who spread dualism, when he came; he was the most powerful religious father among all the *vidharmis*, who established kingship in a maximum number of countries, but did not establish kingship in the entire world. In the last 100 years of the Iron Age, they also accept defeat. The *followers* of Islam, the *soul* of Abraham and the Christians gain fame in the last [time] of the hundred years; this *pomp and show* of Maya spreads such a *pope liilaa*⁵ that... the very name is... the entire human world is astonished because of that *pope liilaa*. This greatness of the human religion sits in the intellect of every human being. [They think] that there is nothing like the Supreme Soul. This itself is the greatest power, which has come in the *control* of human beings. In the scriptures it has been written, ‘deities like earth, water, wind, fire etc., the living deities in the form of the five elements are present in some human form in this human world even now. We just have to recognize them. Ravan had tied them with his bedstead. He pressed a *button* with his finger and there was light everywhere. With a hint of his finger wind, water, fire were forced to do their work. But this is the power of the five elements; it is not the highest power. Controlling the five inert elements of the nature can be the work of human beings or the work of the *power* of knowledge taught by human gurus but it is not the work of the *Supreme Soul*.

The *Supreme Soul* comes and teaches such knowledge that in the world, He is proved to be the guru of this world (*Jagatguru*) in practice. Those [people] just keep the titles of *Jagatguru*. Leave the entire world, not even [all] the Indians accept them [as gurus]. So how can they be called the gurus of the entire world consisting of five-six billion human souls? They will certainly have to bow their head before the Guru. They will have to bow their intellect (*sashtaang*), [i.e.] *surrender* the intellect along with the eight parts of the body. They must bow their intellect. That *Supreme Soul* Father performs such a task through the Sun of knowledge, *dev-dev Mahadev*, Adidev, which no *vidharmi* religious fathers of the world could perform; human religious fathers could not perform it. They came and taught the incomplete practices of their religion, but they could not destroy the oldness, the old traditions, the old and degraded practices. So, when the oldness was not destroyed [but] a new religion was established... For example, if any part of a house breaks, then a repairer repairs it. Similarly, these religious fathers come from *time to time* within the 2500 years, human beings, human gurus have the *history* of this period. Those religious fathers come and do just the repairing in this world. They cannot create a new world. They cannot establish a new, true religion. They cannot revive the Ancient [Deity] Religion; this task of uplifting, the Supreme Father Supreme Soul Shiva, the Incorporeal light, who is called *Sadaa Shiva*, He Himself comes and performs this task through the Sun of knowledge in this world. He has the many false religions destroyed; He has the many false kingdoms destroyed.

These false kingdoms, false religions begin the sorrow in the world. Their slogan is “ignorance will prevail, darkness will prevail”. They do not allow [people] to recognize the soul and the Father of the soul, the Supreme Father Supreme Soul Shiva, they spread such *pomp and show* of Maya. This is a temporary *show*. Hadn’t it been a temporary *show*, why would the scientists be afraid of going in the Bermuda Triangle in the Atlantic Ocean? Why are they unable to understand its secret? The power that explains this secret is the *Supreme*

Soul. It is an invisible power. Scientists cannot know ghosts and spirits. They cannot know their power. Even today, there are such Indian monks, *taantrik* (black magicians) who *control* those ghost like souls. This is considered to be a *third class*, dirty art in Bharat. It has been written in the Gita, “those who worship ghosts and spirits are born in species of ghosts and spirits. Those who worship deities are born in the species of deities. And the one who worships Me attains Me. It means, the one who sits close to the *Supreme Soul – up aasanaa*, *up* means close, *aasan* means the one who sits on a seat through the mind and intellect – he is *dev-dev Mahadev Shiva*, the father of this *humanity*, Adidev.

It is mentioned in the scriptures too: ‘*Twam aadidevah purushah puraanah*⁶’. There is no human being older than him in the world. He plays the *part* of the oldest human being, the *part* of the most degraded Mahaakaal as well as the *part* of the newest human being of the world, who is said to be the *new man of the world*. So certainly, He will perform such a new task. Nobody else in the world can perform that new task, that miraculous task. Seven Wonders of the World made by human beings are famous, but the *wonder of the world*, the *greatest wonder of the world* is established by the Supreme Soul Shiva. It is called vaikunth in the scriptures. Among the Muslims, in the scripture of the Muslims it is called jannat. Among the Englishmen it is called paradise. [They say:] There was the rule of *Lord Krishna* in paradise.

Ram and Krishna are the only two human souls who play the highest role. That is why Baba has said, “The father is called Ram. Krishna is his child. The elevated soul that plays the role of the purest first leaf of the new world is Krishna. The father is revealed through the child and when the child becomes intelligent, he reveals the father. That is why there is a saying, “*son shows father, father shows son*”. The Father is Almighty. That Almighty Father, the *Supreme Soul Almighty Father* comes and reveals the beads of the rosary, whose gathering is remembered in the form of the rosary, [the souls] among all the theist religions of the entire human world who believe in God the Father first. He Himself remains hidden because He is a secret actor. There is also a saying, “the hidden *rustam* (hero) is revealed later”.

Apart from the atheist religion, there is no religion in which the rosary is not rotated. The rosary is a reminder of the most elevated gathering of *humanity* prepared by the *Supreme Soul Father*. The rosary is rotated in every religion. The beads of the rosary are symbols of elevated souls selected from every religion. The Supreme Soul Father has come and is collecting those elevated souls now in this world. This *collection* is being made from the entire human world. Which is the *latest* equipment among the fastest equipments available in the human world now? The *computer*. In that *computer*, the *internet* is such a means that when it attains perfection, when it is connected to the *T.V*, then the 108 stars, who are the highest stars of the world, who emanate the shine of knowledge will be revealed very fast. Every human being of the world will be forced to accept those 108 stars, the 100 stars. The entire world will be controlled by those stars.

There isn't a very long time for that, just as it takes 100 years at the most for the establishment of other religions. The Supreme Father Supreme Soul Shiva also comes into this world and takes a *period* of 100 years to *rejuvenate* the Ancient [Deity] Religion. This *yagya* of knowledge began in 1936. Its very name is the imperishable ‘*Rudra Gyan Yagya*⁷’. The *foundation* for it is laid by Rudra. The very meaning of Rudra is the one who takes on a

⁶ You are the first deity and the ancient man

⁷ *Yagya* (sacrificial fire) of the knowledge of Rudra

ferocious form. When the existence of the one who takes on a ferocious form begins in the world, then the sowing of the seed of knowledge begins and the *atomic energy* also starts in the intellect of the human being. Prior to 1936 there was not even the name of *atomic energy* in this world. Within nine to ten years, the explosion of the *sample of atomic energy* took place for the first time on Hiroshima and Nagasaki. That was the first explosion. That was a very small form. They were just two small bombs of 20 mega watts each that were used in the Second World War. Now, 100 years have not passed [since then]. Two world wars have taken place in the world. So can't the Third World War take place? And if the Third World War begins, if any country that possesses *atomic energy* uses it once, then the other countries will not keep quiet. The world war will be declared. The human beings do not know [this]. A long time has passed after the year 1945; 1999-2000 is going to come now. 300-400 years ago, big astrologers of the world declared the *last world war* [to be] in the year 2000. That *last world war* will be in two installments. The first phase is called the Third World War, which will be fought in India and the countries around India. This will not be a war of *atomic* explosions. This war will be to end the diversity that the *vidharmis* and foreigners have spread in India, and to establish unity. It has been named the massive (*mahaabhaari*) Civil War of the Mahabharata (the great war of the Bharatas).

It is a fight within the household. It is a fight between two [families of] brothers of India itself. Which brothers? The Kauravas⁸ and the Pandavas⁹. The number of the Pandavas is very small; it can be counted on the five fingers. And how many Kauravas have been shown? 100. Through the 100 Kauravas... it means they are not just 100. There are 100 tormenter beads in the rosary of Ravan. Those living beads declare the massive Civil War of the Mahabharata. Another name given to them is Keechak¹⁰. They are also shown to be 100. Keechak means *dirty brutes*, who play the role of licentious people. They create the "explosions of the vision"¹¹ on other's wife, other virgins and mothers and make them adulterous prostitutes (*vyabhicaari vaishyaa*). Even today, virgins from India are going to foreign countries. They (the foreigners) purchase them and take them away. They are being made to practice prostitution. The Indian Government is sitting with arms folded. The highest power of India is *purity*. Even today, in the Indian tradition the virgins are safeguarded so much in every family! Those who are said to be the famous religious gurus, the *jagatguru* Shankaracharya also worship those virgins; they bow their head [in front of them]. Those who are called *jagatguru* also bow their head [before them]. Such are those *Shivshaktis*¹². This has been the tradition in India, that a special stress is given on their *purity*. Today, the Indian Government has become such a coward that it cannot safeguard those *human cows*.

That is why the *soul* of Krishna, the *Gopal Kanhaiyya*¹³ Krishna has to be revealed in this world. The *Gopal Kanhaiyya* is the soul that plays the role of the *heroine*. The *hero* is Ram and the *heroine* is Krishna. The *soul* of Ram plays the strict role of a father and the *soul* of Krishna plays a soft role, who safeguards the cows. They thought that it was the animal cows. So they keep launching movements to prevent the slaughter of cows. Nothing is going to happen through that. The real task that is to be accomplished will be accomplished now. The main representatives of it are three [personalities]: Brahma, Vishnu and Shankar. These are the three cloths, the cloth like bodies, in whose memorial a tricolour flag is hoisted even today by the Indian Government. They just keep singing songs. They keep singing with great

love, “Our vow will be fulfilled when we conquer the entire world, let our flag fly high¹⁴”. They wish to glorify their flag in the entire world, in the entire *humanity*, in every country. *Arey!* Will a flag made of cloth conquer the world? Had the flag made of cloth ever conquered the world earlier? It is the three cloth like bodies. There were three cloth like bodies, who came into this human world and established happiness and peace in the entire world. The Indian souls have to perform the special task of understanding the role of these three cloth like bodies, the ones, who play the role of Brahma, Vishnu and Shankar in practice and glorifying them in the world.

These Indian souls have been selected from every religion in the last birth and they have gathered in India now and are playing the role of the hidden Pandavas. The Pandavas used to move about [being] incognito. They lived in hiding for a long time. Where? In Kampilya town. That Kampilya town, which was established by sage Kapil is famous in the scriptures even today. This secret task of the Pandavas has been going on there for many years. When [that task] reaches a level of accomplishment, then its revelation begins from Kolkata. The Sun of knowledge, sage Kapil first of all steps into this world and begins that task from Calcutta. When the task begins, then the intellectual *shaktis*... It is not that just the three deities are intellectual, but there are also three special *shaktis*, who are named Gayatri. Which is the famous mantra of India? It is the Gayatri Mantra. So those three *devis*¹⁵ must have performed a special task. Those three *devis* are considered to be in the form of the three rivers even today: Ganga, Yamuna and Saraswati. Among them, Ganga is considered to be the highest. When the Ganges of knowledge comes, she becomes helpful in spreading the vibrations of purity through the showers of knowledge in the entire world. Whom does she help? Does she become helpful to Vishnu? She sits near the feet of Vishnu, but she does not become [his] helper in bringing the benefit of the human world. When does she become cooperative? When the Ganges of knowledge departs from the feet of Vishnu and enters the intellect of Shankar. The form of a virgin is shown in the hair locks [of Shankar] in the pictures. Even then, people do not understand whether that Ganges was inert or living, [whether] that Saraswati was inert or living, whether that river Yamuna was inert... she is called *Suryaputri*¹⁶. That river Yamuna was living. Big intellectual people and scholars cannot understand these secrets because there is a saying “*Ke samjhe kavi yaa samjhe ravi*¹⁷”. When that Sun of knowledge, the Supreme Soul is revealed in this world through the Sun of knowledge, only then are the secrets of the poems, the mysterious poems, the figurative poems, the symbolic poem of the ancient intellectual people and poets revealed. That revelation takes place only through the Sun of knowledge. Vicious human being cannot disclose those secrets.

That Sun of knowledge Shiva has arrived in this world. He has come and is performing His task. The souls among whom He is being revealed are really great souls, very elevated and lucky souls. They are so intoxicated because of their luck, that [although] they do not have enough money, they do not possess enough power of the body, health... they are the old weak mothers; it is they who are seen to be in greater number. The Supreme Soul Shiva comes and has the main task done through such weak virgins and mothers, the women in bondage. He reveals His power through the *shaktis*. He Himself is not revealed. That is why they do sing a song, “Who is the one who makes everyone dance, who is the one who creates such a world?” but they cannot understand [the meaning]. All of us children are very lucky

souls as we are understanding these deep secrets and after understanding them, we are making effort so that every human soul of this human world obtains this beneficial knowledge. Is it the Giver of knowledge (*Gyandaataa*) or the knowledge that comes first? (Someone said: The Giver of knowledge.) No. First, the knowledge is revealed in the intellect of the human being. And through that knowledge, information or *Ved vaani*, the human world realizes that Ocean of Knowledge Father. So, through untiring effort, which is called Bhagirath¹⁸ like effort (Herculean labour) the meeting of the rivers, the fair at Ganga Sagar is organized as the last fair, the greatest fair in India. It is not about a physical fair, in which only the inert rivers meet. It is a memorial of the meeting of the living rivers. It is not that if we sit in the gathering once, the fair of the rivers of knowledge, the fair of Ganga Sagar will be revealed in the world or that the rivers, the Ocean will be revealed in the world. Untiring effort will have to be made repeatedly for that. Along with Bhagirath¹⁹, the fortunate (*bhaagyashaali*) children - not just hundred fold fortunate (*saubhaagyashaali*) but multimillion fold fortunate (*padmaa padam bhaagyashaali*) - will have to make untiring effort, only then will the final offering be made. In that final offering, the world of Brahmins, for whom it is famous in the scriptures that there were two kinds of Brahmins... [One kind is the] tormenter Brahmins like Ravan, Kumbhakarna and Meghnad²⁰, who were also the children of Brahma and [the other kind is] the *purushaarthi*²¹ Brahmins like Guru Vasishtha and Vishwamitra. The war of vibrations, the war of knowledge through speech, and the war of differences of opinions between them takes place first. This is the internal language of knowledge, which we children will have to first understand internally. That is why first our home should be reformed and then the others should be reformed. Our *concentration* should not be on external [things]. How should it be? It should be introspective. Only the *direct* children of the Sun of knowledge will be able to understand the fight taking place in the mind, the last world war, the spiritual war and after jumping into that war, after fighting the war they will achieve their kingship. This achievement cannot take place through wicked *vibrations*. The achievement of Raja yoga can take place only through *positive vibrations*. If anyone creates *negative* thoughts towards any soul, then he cannot be called a world benefactor child of the World Benefactor Father. Om Shanti.
